AHMET ŞAFAK ŞENEL

DATA SCIENTIST | COMPUTER ENGINEER

Sarıyer, Istanbul +90 536 855 29 45 **safaksenel61@gmail.com** **GitHub** **LinkedIn** **Kaggle** **DataCamp**

PROFESSIONAL SUMMARY

Computer Engineer experienced in NLP, machine learning, and model deployment. Designed, trained, and productized end-to-end ML pipelines using the Python, PyTorch, and Scikit-learn ecosystem. Dedicated to accelerating data-driven decision-making and delivering scalable automation solutions.

EDUCATION

Nisantasi University | 2023 - 2025
Computer Engineering (B.Sc.) - Graduated

Nisantasi University | 2018 - 2020
Computer Programming (A.S.) - Graduated

Yildiz Technical Macka Vocational and Technical Anatolian High School | 2014 - 2018
Information Technology - Graduated

EXPERIENCE

Ecole 42 Istanbul | April 2024 – May 2024

Software Developer (Piscine Bootcamp)

- Solved 150+ algorithmic problems during a 26-day intensive C programming bootcamp (50+ hours/week), earning admission to the Common Core curriculum.
- Gained low-level system programming proficiency by implementing data structures such as linked lists, pointers, and dynamic memory management from scratch.
- Accelerated intra-team knowledge transfer by conducting 20+ code reviews during the peer-review process.

Google YZTA (Artificial Intelligence and Technology Academy) | December 2023 – Present

AI and Data Science Scholar

- Coordinated a 4-person team as Scrum Master during 72-hour sprints, delivering 2 products (file automation tool, e-commerce dashboard) on time.
- Completed 7 professional certificates, including Google Data Analytics, AI Essentials, and Project Management.
- Designed and integrated an open-source Slack chatbot (Cemil) across 3 teams, achieving a capacity of 50+ automated responses daily.

FLO Group | March 2024 – July 2024

Business Intelligence and Big Data Intern

- Transitioned customer feedback analysis from manual to automated by independently training and optimizing 22 BERT-based Turkish classification models with OpenVINO.
- Reduced complaint classification time by 85% through model integration, enabling real-time analysis of 10,000+ monthly reviews.
- Increased the model F1 score from 0.72 to 0.89 using LLM-assisted data augmentation and SHAP interpretability analysis.

Nisantasi University | September 2023 – March 2025

Library Assistant

- Increased material access speed by managing the return tracking and shelving processes for a 5,000+ record inventory.
- Ensured data integrity by performing cataloging tasks and Excel-based data organization for library operations.
- Contributed to library operational efficiency by participating in departmental teamwork and supporting service improvement initiatives.

DenizBank | December 2022 – January 2023

Intern

- Handled data collection, analysis, and reporting tasks for 50+ branch requests in the digital banking and financial analysis units.

Isik Schools | September 2017 – June 2018

IT Intern

- Reduced average resolution time to under 2 hours by troubleshooting 30+ weekly hardware maintenance, software update, and basic network issues in the IT department.
- Contributed to the sustainability of the school's overall IT infrastructure through daily support activities and technical maintenance operations.

PROJECTS

BERT-Based Customer Feedback Classification System | March 2024 – July 2024

NLP & Model Deployment — FLO Group Internship Project

- Trained 22 two-layer BERT models for 11 main causes, deployed them as a desktop application (.exe) using OpenVINO optimization, and reduced classification time by 85%.
- Boosted the model F1 score from 0.72 to 0.89 with LLM-assisted data augmentation and SHAP interpretability analysis.

YZTA 5.0 Datathon - Cognitive Performance Score Prediction | 2024

ML & Stacking Ensemble

- Built a data pipeline with domain-driven feature engineering, OOF target encoding, and 5-Fold CV on a 56,000-row regression dataset.
- Optimized LightGBM, XGBoost, and CatBoost with Optuna, combined them in a RidgeCV meta-model, and elevated prediction performance to the top 10% using Pseudo-Labeling.

Telco Customer Churn Prediction & REST API with FastAPI | 2024

Ensemble ML & Docker Containerization

- Established a Soft Voting Ensemble through 10-algorithm comparison, SMOTE, and feature engineering, achieving an 0.8422 ROC-AUC score.

- Developed a REST API with batch/single prediction endpoints using FastAPI, containerized it with Docker, and deployed it to production.

E-Commerce Sales Analysis Dashboard | 2024

Data Analytics & AI Sales Forecasting — YZTA 72-Hour Challenge

- Created an AI data pipeline providing 90-day revenue forecasting with Facebook Prophet and category comparisons via radar/bubble charts.
- Developed an interactive dashboard with Streamlit featuring real-time KPI tracking, payment analysis, and Tableau integration, delivered in 72 hours.

Smart File Organizer v2.0 | 2024

File System Automation — YZTA 72-Hour Challenge

- Developed a real-time file watcher with Watchdog; saved 90% of time compared to manual processes through Turkish character cleaning and auto-categorization.
- Added a dark-mode GUI and ASCII reporting module, packaged as a .exe using PyInstaller, completed in 72 hours.

SKILLS

Programming:	Python, SQL, C, R, Git, UNIX/Linux Shell
Machine Learning & AI:	PyTorch, TensorFlow, Scikit-learn, XGBoost, LightGBM, CatBoost, BERT/LLM, NLP, SHAP, Optuna
Data & Analysis:	Pandas, NumPy, Tableau, Power BI, Matplotlib, Seaborn, EDA, MS Excel
Deployment & Tools:	FastAPI, Docker, REST API, OpenVINO, PyInstaller, Streamlit

LANGUAGES

English: Intermediate (B2) **Spanish:** Beginner (A1)

CERTIFICATIONS

- **Data Engineer Associate** (DataCamp) - Advanced data management and exploratory analysis proficiency.
- **Google Advanced Data Analytics** Professional Certificate (Coursera) - Job Ready | Top AI Program
- **Google Data Analytics** Professional Certificate (Coursera) - Job Ready
- **100 Days of Code: The Complete Python Pro Bootcamp** (Udemy) - Python scripting, web scraping (BeautifulSoup, Selenium), APIs, databases (SQL, PostgreSQL) and GUI (Tkinter) development.
- **Google AI Essentials** Specialization (Coursera)
- **Google Prompting Essentials** Specialization (Coursera)
- **Google Project Management** Professional Certificate (Coursera)
- **DataCamp Data Scientist with Python** Career Track
- **BTK Academy** Data Science and Machine Learning Certificates of Achievement
